NOTE FOR: Director of Central Intelligence  
FROM: Stanley Sporkin  
General Counsel  
SUBJECT: Foreign Investment - CIA Contractors

As you know, for some time I have been very much interested in the above subject. I am attaching a copy of a recent memo I sent to the DDCI through the DDA in connection with the contract for our new building. According to today's Washington Post, foreign investments in the United States have increased 57 percent over 1980. A copy of that article is also attached.
